

FORE FRONT PHARMA

Manufacturing Excellence
in Medical Devices

COMPANY OVERVIEW

Fore Front Pharma is a leading manufacturer of high-quality sterile hypodermic syringes under the registered trademark **Drop Point Syringes**. Headquartered in Bengaluru, Karnataka, India, we are dedicated to providing safe, reliable, and precision-engineered medical devices that meet global healthcare standards.

With a commitment to innovation and quality, **Fore Front Pharma** operates with a valid manufacturing license for Class B medical devices, ensuring compliance with the Medical Devices Rules, 2017. Our advanced manufacturing facilities, situated in Morbi, Gujarat, are equipped with state-of-the-art technology to produce sterile hypodermic syringes with needles for a wide range of medical applications. With a robust manufacturing capacity of **25,00,000 (Twenty-Five Lakh)** syringe units per month, we ensure consistent supply and timely delivery for large-scale healthcare and institutional requirements across India. Moreover, our production infrastructure is highly scalable, allowing us to increase output beyond current capacity as per client requirements to meet growing market demand.

Market Insight

Over 70% of syringes supplied to hospitals and municipal corporations across India are imported from foreign brands such as those from America, Japan, China, and Europe. This dependence increases procurement costs and limits supply consistency. With India's strong push for self-reliance in medical manufacturing, there is a growing opportunity for Indian-made syringes to replace imported ones ensuring high quality, timely delivery, and economic value for public healthcare institutions.

Marketing Strategy

Objective: To position **Drop Point Syringes** as the trusted Indian brand for safe, precision-engineered syringes within India.

Strategic Approach: Promote Indian Excellence - Showcase Indian-manufactured syringes matching international standards.

Supply Reliability - Ensure consistent stock and fast delivery from our domestic production facility.

Government Alignment - Support PM Modi's - "**Make in India**" vision and reduce import dependency.

Price Advantage - Offer better pricing by removing import and logistics costs.

Local Impact - Generate employment and strengthen India's healthcare manufacturing base.

Engagement - Conduct demonstrations and certification briefings for municipal health officials.

Our Vision

Inspired by **Prime Minister Narendra Modi's "Make in India"** movement, **Fore Front Pharma** was founded with a sense of national responsibility - to create a self-reliant India in the field of medical device manufacturing.

Our journey began with a simple idea: if India can innovate and export world-class technology, we can also design and produce world-class syringes that serve both domestic and global healthcare sectors.

By manufacturing in India, we not only support the nation's healthcare system but also contribute to employment generation, economic growth, and a stronger national identity in the global medical market.

Fore Front Pharma stands as a proud example of how entrepreneurial spirit and patriotic vision can together drive meaningful change.

Our Mission

To manufacture high quality, affordable and safe medical devices, empowering healthcare professionals and enhancing patient care worldwide.

Our USP (Unique Selling Proposition) - Why Choose Drop Point Syringes

Indian Manufactured, Globally Certified: Designed and produced entirely in India under strict medical certifications.

Superior Quality: Matches and exceeds imported product standards through precise engineering and sterilization control.

Price Efficiency: Eliminating import and logistics costs allows affordable pricing with premium quality.

Make in India Commitment: A proud contribution to PM Modi's *Atmanirbhar Bharat Mission*.

Entrepreneurial Vision: Born from an Indian entrepreneur's belief that world-class products can and should be *"Made in India."*

Product Portfolio - Drop Point Syringes

Our flagship product line, Drop Point Syringes, is designed for precise drug administration and fluid withdrawal.

Specifications:

- Types: Sterile Hypodermic Syringes with Needles
- Sizes: 1 ml, 2 ml, 2.5 ml, 3 ml, 5 ml, 10 ml, 20 ml, 50 ml
- Needle Gauges: 16G, 18G, 20G, 22G, 24G, 26G, 28G, 30G
- Material: Polypropylene, Thermoplastic Elastomer, SS 304
- Sterilization: Yes (Sterilized for safe medical use)
- Shelf Life: 3 years
- Intended Use: Injection and withdrawal of fluids

Do not Re-Use

Do not
Resterilize

Do not use
if Package is
Damaged

Keep Dry

Keep away
from sunlight

Non-pyrogenic

Sterilized using ethylene oxide

Why Choose Us?

- ✓ **Registered & Licensed Manufacturer** - Fully compliant with medical device regulations.
- ✓ **Premium Quality Materials** - Polypropylene, thermoplastic elastomer & SS 304 needles.
- ✓ **Sterile & Safe** - Guaranteed 3-year shelf life with high-precision manufacturing.
- ✓ **Wide Product Range** - Available in various sizes & needle gauges.
- ✓ **Commitment to Innovation** - Advanced technology & strict quality control.

Quality Assurance & Compliance

Fore Front Pharma is committed to the highest standards of safety and efficacy. Our **Drop Point Syringes** consistently deliver superior performance and reliability, meeting or exceeding the quality standards of the leading syringe brands in the Indian market. Each syringe reflects our commitment to precision engineering, safety, and patient comfort, ensuring healthcare professionals can depend on our products with complete confidence. Our syringes undergo stringent quality control processes, ensuring compliance with national and international medical device regulations. We adhere to industry best practices in manufacturing, sterilization and packaging to deliver superior products. We maintain a highly competitive and flexible pricing structure, providing healthcare distributors and institutions access to premium-quality syringes at more favourable rates compared to other established brands. Our pricing approach is designed to support long-term partnerships without compromising on quality or compliance.
